

What is a **CHSO**?

A Certified HIPAA Security Officer is the first tier of a three-level certification program. The CHSO is the basic level and the same has been designed to ensure that individuals that complete this program have a basic understanding of HIPAA Security and the Standards of the law.

CHSO Bootcamp & Certification Program

ENROLL TODAY!

"The CHSO Bootcamp provides a basic review of HIPAA Security standards & specifications. The Bootcamp covers all the required and addressable standards of HIPAA Security as well as a summary of regulatory changes introduced by the HITECH Act and the Omnibus Rule. The Bootcamp is a live review that prepares attendees to take the CHSO certification test."
